Justice of The Peace

Precinct #1

Jim Wells County, Texas

Case NO. 025925-Counter Suit

Defendant's Answer:

We have previously brought a suit against the Plaintiff in this counter suit, filed May 2<sup>nd</sup>, 2025. We have never received an answer to our original claims from the defendant in the original case. Our claims are that we have emailed quotes, email correspondence and receipts, that show that we were quoted a New Unused Pentium II Personal Computer and Data Downloads and Expansion Cards for this new Pentium II.

The evidence shows it was quoted via email on May 16<sup>th</sup>, 2025, by Kyle Cantu from North Point Computers for \$685.00 including Sales Tax, the transfer of hard drive data and expansion cards to "run our welder".

On May 20<sup>th</sup> I went to the North Point Computer facility on 62 Kings Street, Alice TX and paid for the computer (\$678.00). On 6/17/2024 I reached out to Kyle Cantu via email about the delivery of this computer. His email response was that I should email Jay (Jose) Sandoval about the delivery of the new computer.

I did reach out to Jay on 6/17/2024 and he responded back that there was some "lapse in communication" and that there is no computer coming.

We contend that we never agreed to anything except for the purchase of a new computer, and the download of the data onto the new expansion cards on the new computer. We also contend that since there was no computer ever received, how could any of this supposed work begin.

We have never been presented with an invoice for the alleged charges to date. We asked about an accounting of what services were provided in exchange for the computer payment, they would not answer us, this went on for months. Even though they said that they would work on something. Nothing came until we sent a demand letter prior to filing the action.
